

Chandana Maruthi Rao

Bengaluru, Karnataka, India | +91 7039585990 | chandanamr1302@gmail.com | [LinkedIn Profile](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

A B.Tech Computer Science graduate with a strong foundation in Artificial Intelligence, Deep Learning and Computer Vision. Experienced in developing interdisciplinary projects involving machine learning, embedded systems, and sustainable technologies. Skilled in Python, Java, JavaScript, and modern web frameworks, with research exposure through co-authored papers accepted for publication in peer-reviewed journals. Passionate about building intelligent, real-world solutions that contribute to innovation and scientific advancement.

Education

Presidency University – Bengaluru, India
Bachelor of Technology (Honours) in Computer Science and Engineering
Graduated: 2026 | CGPA: 8.36 / 10

Kendriya Vidyalaya(CBSE) – Mumbai, India
Higher Secondary Certificate (Class XII) – PCMC
2022 | 81.6%

Kendriya Vidyalaya(CBSE) – India
Secondary School Certificate (Class X)
2020 | 89.6%

Professional Experience

Intern – Quanfluence, 01/2026 to 03/2026

- Developed GUI components for SPAD systems using HTML, CSS, and JavaScript.
- Worked on embedded system automation and SPI-based flash memory integration.

AIML Trainee – Samsung Innovation Campus (Samsung R&D Institute), 06/2025 to 12/2025

- A competitive six-month training programme focused on AIML and Deep Learning.
- Applied AI concepts through practical projects and model development. .

Data Science Intern – Unified Mentor, 04/2024 to 06/2024

- Performed data analysis, visualisation, and predictive modelling on real-world datasets.

Technical Projects

- **Digital Twin for Smart Factory Energy Optimisation:** Developed a digital twin model to simulate, analyse, and reduce energy consumption in a smart factory environment.
- **Canine Disease Detection mobile application:** Built a "SkinSense" Android app using U-Net image segmentation to detect and classify canine skin diseases.
- **Responsive Portfolio Webpage:** Designed and built a personal portfolio using HTML, CSS, JavaScript, and Bootstrap.
- **Text-to-Speech in Local Language :** Developed an Arduino-based device to help farmers with reading difficulties by providing audio information in their native language.

Research Publications

- Co-Author – “[Mobile-Based Deep Learning Approach for the Early Diagnosis of Canine Skin and Eye Diseases Using MobileNetV2](#)”, published in the *Open Veterinary Journal*, 2026.
- Co-Author – “[Digital Twin for Smart Factory Energy Optimisation](#)”, published in the *International Journal of Research in Engineering Technology and Applications (IJRETA)*, 2026.

Skills

- | | | |
|-------------------|-------------------------------|-------------------|
| ● AIML | ● Deep Learning | ● Computer Vision |
| ● MATLAB | ● Python | ● Java |
| ● C# and .NET | ● Django | ● JavaScript |
| ● HTML, CSS | ● Communication | ● Problem solving |
| ● Time Management | ● Object-Oriented Programming | |

Certifications & Professional Development

- AIML Trainee -Samsung Innovation Campus
- Full Stack Web Development – Udemy (React, Angular, NodeJS)
- Data Visualisation Techniques – Infosys
- Data Structures & Algorithms (DSA) using Java – CodeChef
- Innovatex: Line Follower (Build Club, Presidency University)
- Arduino using Embedded C (Innovative Project Expo 2023)

Languages : ● English (Fluent) ● Hindi (Fluent)
